Land violations

4 March 2013	0630	An Israeli enemy patrol opened a gate near the Ghajar bridge position. A Merkava tank then crossed the technical fence but did not violate the Blue Line. It took up a position behind an earthen berm and directed its gun towards Lebanese territory. At 0650 hours, a bulldozer crossed the technical fence and proceeded to move soil and construct a dirt road. At 0745 hours, another bulldozer, a Poclain, crossed the technical fence and was also used to move soil.
	0800	The Israeli enemy constructed a dirt road opposite the Wazzani resort running from the top to the bottom of the hill, next to the river and in the territory with regard to which Lebanon maintains a claim, without violating the Blue Line. A Raven reconnaissance aircraft circled over the work area. At 1000 hours, a Merkava tank arrived from the occupied Palestinian territory and took up a position behind an earthen berm. At 1345 hours, a large armoured bulldozer equipped with a 12.7 mm machine gun arrived and proceeded to construct the road.
	1130 1200	Medium-weapon fire was heard in the area surrounding the Ruwaysat al-Alam position, within the occupied Shab'a Farms. A large winch was also observed at that location.

One tank crossed the technical fence, took up a position on the hill opposite the Wazzani resort and directed its gun towards Lebanese territory. The large and the small bulldozers and a number of enemy personnel crossed the technical fence, and the large bulldozer erected a large earthen berm at the work site. The enemy ended work at 1630 hours and the vehicles returned to the occupied Palestinian territory.
	1930 2000	An Israeli enemy patrol directed a searchlight towards the Majidiyah plain from a position inside the occupied Palestinian territory, opposite the mosque in the town of Abbasiyah.
6 March 2013	0750	The Israeli enemy resumed work on a dirt road that it had begun constructing earlier next to the river, opposite the Wazzani resort. Three construction vehicles and three Merkava tanks arrived and crossed the technical fence. A truck equipped with a winch then arrived and placed three concrete water pipes next to the technical fence inside the occupied Palestinian territory. The work ended at 1635 hours.
